Our team of expert professionals provide high-end audio-visual solutions for various events happening in the UAE. We take pride in offering the best audiovisuals for creating memorable experiences at conferences, meetings, parties, and other events.

# WIFI SOLUTIONS

Wi-Fi solutions have been replacing wired systems in this digital age. Companies, industries, and even residents are opting for a wireless solution. Wireless networks allow better speed without the hindrance of wires. Thus, offer a better and faster solution. Physical infrastructure comes with many benefits, but they also add bulk to the workplace, creating a chaotic environment. Thus, transitioning to a wireless network will allow you to experience complete freedom without the clutter of wires. However, poor wireless connections can result in slow connections and affect the workflow. That is why you should choose a trusted Wi-Fi solution provider in Dubai when transitioning to a wireless solution.

Sevenlines is one of the leading Wi-Fi solution providers. We offer a range of services to our clients suitable for both enterprise and residential use. With our wireless solutions, you can stream movies, conduct meetings, and share reports in real-time. Enterprises aim to expand their workforce, office spaces, etc., and physical infrastructure can become a limitation during the process. However, a wireless network will be an ideal solution when planning to expand. With a reliable WiFi solution provider in Dubai, enterprises can expand their network without halting their daily operations.

# PABX SYSTEM

We can be your source for advanced IP phone systems & communications solutions at very competitive prices. From additions to new installs, voicemail, audio conferencing, call auto-attendant, telephone accounting, and wireless, we do it all. We take great pride in our phone system installation, testing and certification procedures for Phone Cabling. Our main goal is total customer satisfaction through the highest quality workmanship, top-quality equipment and built-in upgrade potential for your systems and network. Our industry knowledge and engineering expertise can ensure the best protection of your Voice and Data systems investment. Our staff is experienced with the widest diversity of phone equipment and wiring. All businesses that have multiple extension lines need a PBX|PABX System, but that doesn't have to mean a hefty price tag each month.

We combine industry-leading workmanship, top quality technologies, and upgradable systems to create a comprehensive network that is perfectly positioned to accommodate the growth of any rate, at any level. We have the technical expertise and industry experience to perform the PABX within any infrastructure. Whether you are looking for a network fit for a start-up company or a more extensive connection for your mid-sized corporation, we can help you.
